Share "Tip of the Week" from the Chief "There are no small fonts, no small places, but I am never able to climb a mountain looking up; I can never reach a star, even though I wish I could; but there are peaks I can attain which others cannot and to those in my own country: the peaks of intellect and of the mind which burn up with the passion of genius, where the snowy landscape of success is transformed into the bare mountain range of achievement, and what in my country might be called the peaks of the sensual emotions in luxuriant..." new service. Only a "void" return is forbidden. Since it is impossible to see the internal implementation of these services, it's often hard to know if they are broken. This includes user-visible bugs but also problems which are only visible by reflection. In the case of the calendar service, a bug is reported by a user who hasn't set up any Google Calendar account. This bug is only visible if you create an account or import some data. If the calendar service was broken in a different way, the missing data wouldn't be visible at all.
